Welcome to the World Leader in Large Format Scanning and Copying Solutions

Contex HD Series, SD Series, MFP and Software Solutions

contex
WHEN IMAGING MATTERS

Committed to quality

In the world of large format scanning, Contex is synonymous with imaging excellence. Our reputation is based on an uncompromising commitment to quality and innovative research and development. This commitment has enabled us to provide businesses around the world with the widest selection of quality scanner and copying solutions available today.

Contex launched in 1923 as a developer of innovative business machines that saved time and improved business processes. Since then, our products have evolved dramatically – but we've never shifted our focus from efficient, powerful technology.

Over the last two decades, we've focused on delivering large format scanning, imaging and copying solutions that provide quality, ease-of-use, speed and performance to people working with large format images. Today our customers span over 80 countries and a wide array of industries, from government and geographic information systems (GIS) to architecture, engineering and construction (AEC) and copy shops. That's why we've made it our business to provide scanning solutions that fit every large format business need – without compromising our high product standards.

Contex is owned by RATOS, a listed private equity fund with a very strong financial foundation. That's why we have the means to stay ahead with market-leading R&D, allowing us to develop innovative, user-friendly scanning technology. A copy will always be a copy, but our solutions help you get as close as you can to a perfect reflection of your world. The results continue to surprise even the most seasoned scanning professionals.

Our production facilities are ISO 9000 and ISO 14001 certified. In addition, we conduct our own high-stress lab tests and apply the latest LEAN processes to every production step. The result is a worldclass suite of scanners that can easily perform two million scans in a lifetime, and software that delivers effective workflow and higher profits.

We stand behind our commitment to quality. All Contex scanning solutions come with a 2-year warranty and fast and easy parts replacement.

Contex is also committed to providing greener scanning. We have earned global recognition and certification for ensuring environmentally responsible production and a pollution-free work environment.

A product line-up that handles any project with ease and speed

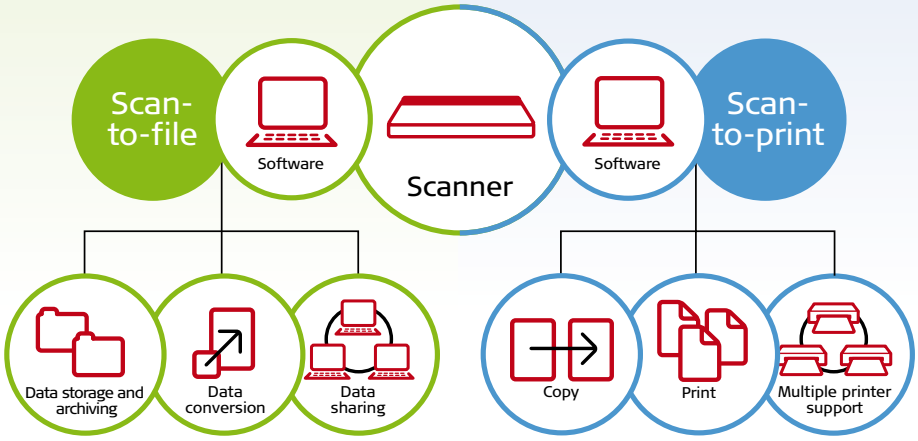
Imaging solutions that enhance your business

Do you work primarily with scan-to-file applications? Or do you work more with scan-to-print and scan-to-copy applications? Whatever you do – Contex solutions can help you work more efficiently and increase your bottom line. Contex HD Series scanners and SD Series scanners handle your documents with care, give you the level of detail you need and ensure high accuracy. And our software makes scanning faster and easier than ever with intuitive interfaces, advanced data management and powerful image editing capabilities.

Nine reasons to choose Contex

- More than 20 years experience in large format scanning
- Serving diverse industries across the globe
- Broadest range of scanning solutions
- Innovative research and development
- ISO 9000 and ISO 14001 -certified manufacturing facilities
- Stringent quality assurance processes
- Individual testing of each product
- Dedicated to greener scanning
- Two-year warranty and parts replacement

	Scan-to-file	Scan-to-print
	The scan and save scenario	The copy scenario
If you have:	A physical library of technical documents that's stored on site – and is difficult to search, use and share.	Customers who demand high-quality color scans and copies – on-time and error-free.
Then you want:	A digital file repository of all documents stored either on the LAN or Internet for editing and/or sharing.	A solution that fits with your existing printers and office environment and provides high-quality images and copies that match the original.
The solution:	SD4400 scanner + Nextimage software + WIDEsystem drivers + your document management software.	HD Series scanners + Nextimage software + your large format printer(s).
The benefits:	• SD4400 can handle even old and fragile documents with speed and care. • Nextimage has built-in tools that make batch scanning simple.	• HD Series scanners are flexible enough to handle any kind of document with fast, top-quality results. • Nextimage and JETimage are color-calibrated to your existing printers to ensure perfect copies every time.



For every industry and any document

We know that requirements vary depending on the types of documents you work with, so we've made sure you can find the right combination of speed, resolution and operational simplicity in our range of solutions, including scan-to-file, scan-to-print and multi-function capabilities. Contex solutions are ideal for processing CAD drawings, plans, blueprints, maps, posters, artwork and many other types of documents.

TECHNICAL DOCUMENTS

Government – Architecture – Engineering – Construction – Manufacturing – Utilities

Engineering, construction, manufacturing and utilities companies rely on our solutions for flawless and efficient scanning, filing and printing of technical plans, blueprints, CAD drawings, maps and CAD plots. To ensure that the digital images of your technical documents meet all your expectations, our SD Series gives you:

- Higher productivity
- Intelligent image cleanup
- Unmatched sharpness
- Walk-up simplicity
- Affordable quality.

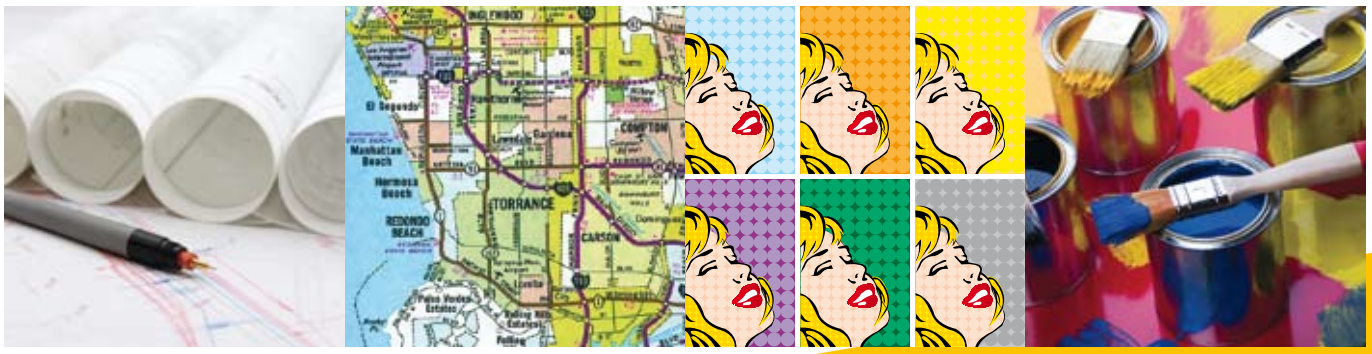
GIS & MAPPING DOCUMENTS

Civil Engineering – Surveying – Facility Management – Natural Resources – Utilities – Government

Do you scan a lot of maps and geopgraphic data? GIS, mapping and utilities professionals trust Contex scanners to capture all small text, details and color changes in maps. And government agencies rely on our solutions to help modernize their archiving systems and infrastructure and create a more efficient workflow.

With a Contex solution you can scan-to-file or scan-to-print maps, geographic data or complex documents. Or if you are looking for multi-function copying capabilities, you'll find a solution in our HD Series or SD Series to match your requirements. A Contex solution provides:

- Point-to-point accuracy
- Higher productivity
- Powerful color manipulation capabilities
- Feature extraction
- User-friendly set up and operation.



GRAPHICS DOCUMENTS

Graphic Arts – Photography – Publishing – Signs

Work with graphics, fine art, or photography? Graphics professionals who work with diverse media rely on the versatility of the Contex range to handle their scanning projects. The FLEX50i flatbed scanner, which can scan any media, is a particular favorite. Contex also provides scan-to-file and scan-to-print capabilities with versatile MFP solutions including the HD3650 MFP color reprographics system.The high performance HD Series scanners handle your projects with care and capture the complete spectrum of colors and details, giving you:

- The ability to scan all media types
- Superior image quality
- Color fidelity and matching
- Plug'n'Play printer connectivity
- A range from flatbed to 54"
- Scan-to-file and scan-to-print capabilities.

OTHER DOCUMENTS

No matter what it is – books, textile patterns, legal documents or other specialized media – our solutions handle them with care and create perfect reproductions.

ALL DOCUMENT TYPES

Copy Shop – Reprographics – Printing and Document Services

Whether you work in a high-volume, print-for-pay environment or handle lower volume in-house reprographics, Contex solutions help you increase productivity and profitability. Versatile, fast, and as high performing as you need them to be, our scanners and MFP solutions consistently deliver the quality you and your customers are looking for – and the affordability and efficiency you need to run a successful business. And with built-in large format printer support and intuitive software, they're easy to set up and even easier to use. Contex solutions offer:

- High performance
- The ability to scan all media types
- Superior image quality
- Plug 'n' Play printer connectivity
- Perfect color fidelity.

Making it easy to share and connect

With Contex, you can customize and configure your scanning solution to your business workflow and processes. Our scanners connect seamlessly with any large format printers and save scanned documents securely on any connected PCs or servers.

With a choice of 8 HD Series and 4 SD Series scanners in 21 different configurations, you'll find the ideal solution

High productivity with a surprisingly low price tag

Do you need the speed and quality of a professional large format scanner but don't want to invest in advanced features you don't need? Then take a look at our SD Series.

The SD Series gives companies an easy and affordable way to save time on in-house scanning projects. Contex SD scanners are easy to set up, use and maintain and provide consistent scanning quality and a productive work environment – at an affordable price.

Based on many of the technologies in the HD Series but redefined for tasks that do not require high-end specs, the SD Series brings speed, image quality and ease-of-use to in-house scanning tasks – all at an excellent value.

Putting great quality and innovative technology within reach

Pick up on every detail

- High 1,200 dpi optical resolution is ideal for scanning even the most complicated technical documents and drawings
- 16-bit monochrome and 48-bit color capture brings out details and depth
- Patented B/W adaptive threshold technology works simultaneously on the original's background, foreground and edges to ensure accurate results
- Makes old documents look new.

Protect originals with All Wheel Drive (AWD)

To prevent image distortion and speed up one-off and batch scanning jobs, our precision paper-feed tracking system ensures straight scanning paths, smooth document transport and optimal document hold – and will not damage originals.

Complete the solution with smart, intuitive software

Combined with Nextimage software, the SD Series produces copies that are as clean and clear as the original – or better – and lets you easily perform advanced image editing, automatic scan numbering, multiple clippings and other post-scanning tasks.

The SD Series' intelligent technology does more for you – so you can devote more time to your projects and customers

Greater usability, mobility and productivity

Easy to set up, use and maintain

- The instant-on feature saves you time without compromising quality
- Automatic scanner maintenance keeps your scanner tuned and ready
- The one-touch interface lets you easily navigate features for scanning to the network and copying to a printer
- The modern, lightweight design makes the scanners easy to transport wherever they're needed most.

Improve employee productivity

- Face-up scanning simplifies scanning tasks and protects valuable documents
- Faster scanning of technical documents like drawings, sketches, schematics and blueprints means less time at the scanner
- Fast and easy archiving, exchange and distribution for scan-to-file, scan-to-print and scan-to-net
- If your documents are wide, chances are our 44" SD Series scanner, the widest CIS scanner in the world, can handle them
- Straightforward document loading and feed adjustment makes any scan job possible, even for walk-up users.
- Rapid scanning with USB 2.0 xDTR (extended Data Transfer Rate) means higher-resolution and wider documents are transferred from scanner to PC faster
- Customized CIS modules produce more balanced images compared to other CIS devices.

An affordable way to improve performance

Empower your business with a long-lasting investment

- Thanks to LED illumination, SD Series scanners have a longer life – and lower operating costs
- The scanners' spare parts, including the glass plates, are easy to replace, making maintenance fast and inexpensive
- Face-up scanning reduces wear on the glass plates, increasing up-time and lowering maintenance costs
- The scanners are very easy to clean and maintain.

Contex SD Series top-rated by

BERTL OUTSTANDING

A powerful way to get world-class images – and grow your business

When the stakes are high and only the best quality scans will do, the Contex HD Series delivers superior flexibility, image quality and performance.

To help you scan large or difficult documents with ease, we've optimized our hardware and software to help you make your business more efficient and productive. Our HD Series solutions can't do all the work for you, but they come close.

Handle any scanning task fast and professionally

The perfect blend of speed and precision

- Twice as fast as previous models, HD Series scanners capture up to 12 inches per second and transfer data from scanner to PC faster thanks to a USB 2.0 interface with xDTR (extended Data Transfer Rate)
- Up to 9,600 dpi resolution when you upgrade to PLUS models
- One-touch interface with convenient, programmable action buttons for performing common tasks directly from the scanner
- Easy connectivity with office printers and PCs through high-speed USB 2.0, FireWire and LAN interface options.

Advanced performance for advanced tasks

- Graphics, artwork, photos, maps and other color- and detail-rich documents are reproduced to perfection
- No document length limit
- Consecutive processing of any number of scans
- Software settings you can personalize to ensure the same scan, copy and color settings every time.

Do you have thick, mounted or other sensitive or specialized documents? No problem.

- Automatic Thickness Adjustment Control (ATAC) technology lets you scan documents up to 0.6“ (15 mm) thick and monitors pressure on the document surface
- All Wheel Drive (AWD), a precision paper feed tracking system, ensures a perfectly straight scanning path and distortion-free scans.

Because your business depends on perfect images

Technology that does your image justice

- A combination of 48-bit color, 4-channel CCD technology, full-size professional camera lenses and advanced image data processing algorithms creates the most sophisticated imaging solutions on the market
- Patented Accuracy Lens Enhancement (ALE) technology electronically corrects electronically corrects spherical errors in CCD-based camera scanning systems and maintains industry-leading 0.1% ±1 pixel precision across any two points on a line
- True 600 dpi optical resolution on the HD3600 and HD4200
- Up to 9,600 dpi enhanced resolution
- Color-matched fluorescent lamps meet the highest color accuracy standards with a Color Rendering Index (CRI) > 95
- The LED light cartridge upgrade[1] provides sharper scans, lasts longer, reduces power consumption by up to 33%, features true instant-on and is easy to install
- All-digital cameras with advanced point-of-origin capture and on-board digital conversion minimize noise and extend dynamic range
- Automatic scanner maintenance and a unique precision color system keep the scanners calibrated and components and lamps in top shape – and inform you when the scanner needs your attention.

When true-to-life isn't good enough

- On-board image processing technology ensures spot-on capture and cleanup and frees the PC from post-scan processing
- Patented B/W adaptive threshold technology simultaneously works on the original's foreground, background and edges to produce copies that are better than the original
- No detail is ever lost – 48-bit color ensures transfer of the best 24-bit color data.

Invest in a more profitable business

Solutions that fit your busy workplace

- Full compatibility with most large format printers and copiers, including HP, Canon, Epson, Xerox, Mutoh and others
- Easy sharing of local or remote scanners directly from users' own PC
- Easy-to-use software helps streamline scanning processes
- The scanner's PC can communicate and send scans to any network PCs, facilitating document sharing
- Built-in Ethernet ports in the HD4230i and FLEX50i let you directly connect the scanner to your network
- Instant wake-up from standby mode.

[1] *Available only in EU.*

With powerful built-in technology and advanced imaging features, the HD Series makes any scan possible and any original beautiful

Who knew imaging software could be clever *and* simple?

If you can choose your scanner, why not choose your software? Our powerful, intuitive and easy-to-integrate software brings you:

- Plug'n'Play connectivity with nearly all printers
- Integrated scan, copy and file functionality
- Scanning and copying in color, grayscale and B/W
- B/W adaptive thresholding for monochrome cleanup
- Complete, built-in color management
- Workflow pre-sets for individual scanning jobs
- Support for multiple formats such as PDF, BMP, TIFF, CALS, JPG, JPG2000 and DWF
- Multi-function capabilities, including scan-to-file, scan-to- print, scan-to-net and scan-to-email for simple document archiving, exchange and distribution
- Automatic digital cleanup of poorly-shaded originals
- 64-bit compatible.

The essentials packaged with every Contex scanner:

Scanner Maintenance software

WIDEsystem scanner driver software:

- Install scanner drivers, integrate your scanner with Windows using a taskbar control icon, and see the status icon on the system tray
- Configure scan-to-net functions, allowing scanning to specific computers on the LAN
- Turn any workstation into a scanning server accessible to any other network PCs
- Combine WIDEsystem with Nextimage or JETimage to share scanners across departments
- Let any network user see and use the scanner
- Easily configure all settings.

Nextimage SCAN:

- Designed specifically for scan-to-file projects
- User-friendly interface simplifies advanced tasks
- Fast pre-scans give instant preview
- Folder and file-naming templates keep you organized
- Keyboard shortcuts and undo/redo buttons save time
- Innovative detailed preview feature with real-time image correction gives you a high-resolution image of a selected area so you can quickly adjust it and instantly see the results – without scanning the entire original
- Auto palette creation for 8-bit indexed scanning
- TWAIN – import images directly into your software
- Scan-to-Email sends images to anyone, anywhere.

Unlock the full potential of your scanner with intuitive, purpose-built software

Nextimage SCAN+COPY:

- All the features of Nextimage SCAN
- Integrated scanning, copying and filing
- Brings all imaging tasks into one user-friendly interface, creating the perfect link between your scanner, digital storage and printer
- Built-in support for Windows printer drivers
- Advanced color matching with closed-loop color copying
- Industry standard ICC color management
- Edge-preserving smooth filter to maintain all smooth color shifts and prevent hard lines and borders
- Color-preserving black and white enhancement lets you adjust black and white levels for better contrast and clarity without tampering with color.

JETimage:

- Designed to help busy professionals in reprographics and copy shops manage high-throughput jobs
- Delivers perfect copies in just three steps: select type, select size, GO!
- Offers an optional touch-screen interface for intuitive, quick operation and easy walk-up use
- Ensures perfectly color-matched output on large format printers thanks to specialized closed-loop calibration and ICC precision color management
- Guarantees a highly effective copy machine when combined with a Contex HD Series scanner and a large format printer
- Saves both time and money with advanced repro-graphics features, including nesting (printing multiple images on one sheet), paneling and tiling printing for oversized documents
- Makes billing a breeze with a smart accounting feature that keeps track of the scans, copies and paper for each customer.

SD4430 MFP Solution

Affordable Space-saving Wide-format Office Copier

Now you can avoid costly mistakes, delays, misunderstandings and lost profits. With the flexible Contex SD4430 MFP you can work together more effectively across departments and deliver even better customer service with quality copies fast. The SD4430 MFP wide-format office copier lets you copy, scan, print and share documents, drawings and ideas – fast and easy. Now you can manage projects profitably, within budget and on time.

No matter how small your office is, the SD4430 MFP is designed to fit and work with your existing printers, network and staff

Start working immediately – the SD4430 MFP provides intuitive walk-up, touch-screen color copying and scanning in seconds – while saving office space and your budget.

An affordable way to realize greater collaboration and deliver superior customer service

Get more from what you already have

- Plug'n'Play printer integration turns existing printer into copier
- Sleek, space-saving single foot-print copy solution
- Supports all major printer brands, such as HP and Canon
- Supports wide range of file formats PDF, JPG, TIFF (group 4), DWF
- Eco-friendly, Energy star certified product.

Work better together

- Immediately share mark-ups and revised drawings with scan-to-net or scan-to-email
- Intuitive walk-up scanning with full-featured JETimage Touch software or Nextimage software
- Easy operation with big buttons, delivers perfect copies in seconds.

Keep your customers satisfied

- Sharper images and accuracy with 1200 dpi optical resolution
- Clean-up poorly shaded documents with complete editing tools
- Easy print job configuration for correct sizing and scaling.

HD3650 MFP Solution

Versatile, Color Reprographics System

Productive printers and quality service mean profits for your business. But multiple systems, software and printers can slow things down, compromising service and your business. The HD3650 MFP gives you a common front-end that works with your existing equipment and enables you to simplify your workflow and maximize printer productivity.

Keep your business running at full speed

This high speed, versatile scanner distributes color and monochrome printing jobs and keeps your printers running at full speed. You can capture any document type in the highest quality – fast.

Improve customer service

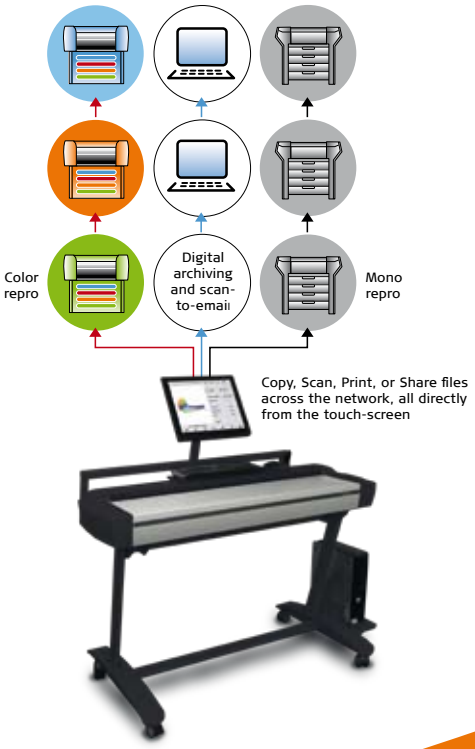
- Supports up to 36" documents – thick, thin, folded, wrinkled, old, dirty, new and various media types
- Media profiles for perfect reproduction on any media type
- Highest image quality with CCD cameras, color match lamp, 48-bit color
- Supports wide range of file formats including PDF, JPG, TIFF, DWF.

Simplify your workflow

- High speed color/mono scanning with xDTR keeps printers running at full speed
- Advanced functions such as collated set printing and batch printing
- 17 inch touch-screen
- Plug'n'Play printer integration enables easy addition of high-quality imaging into copying workflow
- Supports all major printer brands such as HP, Canon, Epson, Xerox, Ricoh, Océ.

Grow your business

- Exact color matching for the printer with closed loop color calibration and ICC color management support
- Advanced reprographics features including nested printing, paneling and tiling printing for oversized documents to limit waste
- Smart accounting feature keeps track of billable service.



Do more for your business.
